A diagram showing a vertical line representing a boundary. A horizontal line segment extends from the left end of the vertical line. A curved arrow starts at the right end of the vertical line and curves upwards and to the right, labeled "45°". Another curved arrow starts at the right end of the horizontal line and curves downwards and to the right. The angle between the vertical line and the horizontal line is 90 degrees. The angle between the vertical line and the upper curved arrow is 45 degrees.
